II. Miscellaneous

- a. [REDACTED] - after discussing Commercial's recommendations with Mr. Lloyd it was agreed that it would be best if CM worked out a joint position with Cover before making any recommendations to DD/P. I discussed this point with Luke [REDACTED] who agreed such a course would probably be more fruitful and he is therefore going to prepare in conjunction with Cover Division an action paper for DD/P concurrence and DD/S approval regarding the commercial expansion aspects.
- b. Contract Personnel Conversions - [REDACTED] called me re the memo Security prepared for DCI's signature on this subject. Bob was also concerned in that no one in Security had seen the SSA-DD/S staff study which he said was to be coordinated with Security. I explained to Bob what had happened on both of these papers and told him we were working on the problem. He said that wherever he went in the field he ran into this problem and urged that priority be given to getting something out to all concerned. He thought the idea of having the Director sign an issuance disseminated to both hdqrs. and field was a good one. I told him anything prepared would be coordinated with Security.
